The DEQ Gasco project team would like to convene a joint DEQ/EPA meeting to discuss our plans for upland source control at the Gasco/Siltronics site. The purpose of the meeting would be to:

1) Describes the current status, intentions, & tools for the future direction of DEQ's upland source control at Gasco & Siltronics. DEQ will also describe anticipated source control actions, schedule & plan for staffing to meet these commitments.

2) Discuss the status of EPA's plans & scope for a potential in-water early action at the Gasco/Siltronics site.

3) Discuss options for integrating the 2 processes in a way that best achieves shared objectives at the site, is most efficient, & is accommodating of limited EPA/DEQ & NWN resources available to do the work.

I'd like to schedule this meeting to happen here in Portland in early-10/06. I'd like Sylvia, Sean, Eric, Chip, & Kristine to attend & we'll plan on having Keith, Matt, Dana & me attend. Please advise me as to your interest & availability.

I understand Sylvia is moving on to a new assignment & that Debbie Yamamoto will replace Sylvia. Hopefully, Sylvia & Debbie can both make the meeting.

Please forward this message to Debbie Y.
